

🕒 Timeline Challenge: Can you place them all?

1. Look at the two timelines: **Top** = 5 billion years to now;
🔍 **Bottom** = zooming in on the last 600 million years.

2. Each event below has a letter **A** to **K**. Write the letter in the circle where you think it belongs.

Events to Place (mixed up order)

- A. 🍼 Early mammals
- B. 👁️ Our ancestors get eyes
- C. 🐸 First fishy floppy steps on land
- D. 🔋 Mitochondria — cells get power plants
- E. 🌋 Earth forms — the floor is lava
- F. 🌪️ Asteroid that ended the rule of the dinosaurs
- G. 🦠 First life
- H. 🔥 Homo erectus begin — fire masters
- I. 🦷 First jaws in our line
- J. 🐒 First apes
- K. 🥚 Eggs safe on dry land
